"Scalar Field Technology" by Prof. Victor Marcial-Vega, MD, - presented at Bradgate Arms, Toronto, 2002:

"IMPROVED HEALTH CONDITIONS - A number of conditions have responded very quickly: DIABETES: may have improvements in their blood sugar. VISION: I noticed this would improve vision and it started improving my vision so much that my contact prescription has gone down. KIDNEY STONES: People who went in with kidney stones passed them painlessly after being in the EES. CHRONIC PERMANENT INJURIES: nerve, muscle, bone, cartilage damage due to accidents, were able to start moving normally. That is very unusual because I haven't seen this improvement with any alternative or conventional medicine procedures."

"This is one of the most powerful detoxifiers and energizers I have encountered. The system creates beneficial frequencies that give the cells more energy to expel anything they want to get rid of. PAIN CONTROL: The more chronic the pain, the better the chance of improvement. My patients experienced it as useful for pain control of all kinds. PARKINSON'S AND TREMORS: One of my patients with Parkinson's went into the chamber and stopped shaking. STROKES: I've seen people with strokes being healed in one session. ANXIETY AND DEPRESSION: We have had results for people who suffer. SINUS PROBLEMS, FIBROMYALGIA, FATIGUE, ARTHRITIS: have improved." - "It is my opinion that this is a powerful energy enhancer. It promotes a very deep state of ultimate relaxation, if we allow it, from which all types of healing can occur."

renowned author & speaker Dr. Wayne Dyer

"I'm a big supporter and endorser of Dr. Michael's work. Her technology is a great way to reach thousands who are suffering as a result of the food we eat, polluted environment we live in and toxins we are exposed to. I've been involved with this technology myself and

have had several treatments with her and have seen positive, dramatic changes in my body. I have seen the blood tests myself on patients and the before and after results in ridding the body of disease are remarkable. Sandra Rose is on the cutting-edge of what one day I believe will be standard practice in curing disease. That old belief system that everything has to be done through surgery or drugs is not in keeping with the power each of us has to heal and align ourselves physically, spiritually and mentally using natural, alternative means. Nobody heals anyone; healing takes place within the body. Sandra Rose's work exemplifies that. It's all about body alignment. Often Western treatments produce worse effects than the disease. We're the only country in the world that allows advertising for prescription drugs on TV. Drugs don't cure diseases, they get people addicted. There is another way to help our bodies, mind and spirits achieve balance. The work Sandra Rose is doing is so valuable, it allows us to go with-in to cure ourselves. We have to return to our nature."

Scalar Energy & The Future of Medicine

EESystem™ has the potential to accelerate healing by up to 90%. This groundbreaking technology, in which the client simply relaxes in a chair or bed while surrounded by colorful computer screens, has had global coverage on CNN and Discovery Channel due to the “wow factor” for the client. In 2008, it was the first *technology* ever to receive the internationally renowned Qi Technology of the Year Award.

The reason the body heals so fast with the EESystem is due to hyper-healthy “scalar energy”. *True bio-scalar* waves create bioactive fields for cellular regeneration on all levels. Unlike electromagnetic waves used widely in healthcare modalities today, scalar waves are unique and must have the following key characteristics: 1) Wireless energy transfer; 2) Feedback of the receiver; 3) Proof of free energy; 4) Superluminal velocity; and 5) No containment by a Faraday cage.

Although scalar fields are well known in geology, hydrodynamics and astrophysics, the EESystem represents the first entry of “true bio-scalar” into the wellness market.

Dr. Sandra Rose Michael, DNM, Ph.D, DCSJ, Researcher in Applied Integrative Bio-Physics having taught alternative healthcare for 3+ decades and revered as Nikola Tesla’s counterpart—*Mother of Scalar Energy*, is the Inventor of EESystem backing it with: 20 years of research and development; clinical studies proving: significantly increased oxygen levels, *quadrupled* mitochondrial function in a United Kingdom study using Electro Interstitial Scanning, and *visibly repaired breaks in the DNA* and *lengthened telomeres* at a major university in the U.S.; impressive clinical studies planned with the National Institutes of Health and Mt. Sinai Hospital, and also DNA research with top Geneva geneticists; and over 1500 units installed worldwide, including University of Hawaii Medical School.

Her patent pending design unifies scalar energy, bio-photonic fusion, pulsed electromagnetic fields (PEMF), hydro-bifurcation (similar to a hydrogen fuel cell), dense intentional fields, and direct interface with the DNA. As a result, EESystem’s generated bio-scalar field helps activate one’s own scalar vortex and subsequent scalar field, simply while relaxing.

Although EESystem is not intending to diagnose, treat or cure disease or make claims, this bio-scalar invention is so advanced, it helped: a *severed* spinal cord patient to walk again (<http://www.youtube.com/watch?v=P6xRBDGowws>); a “permanently” blind patient see again (http://eesystem.com/docs/EES_ResearchResults.pdf); and a Parkinson’s patient having tremors for decades eliminate all motor dysfunction after a 2-hour session (<http://www.eesystem.com/testimonial.php>). Other benefits include nullifying electro pollution, glucose stabilization ([http://www.eesystem.com/media_radio.php#select audio #8](http://www.eesystem.com/media_radio.php#select%20audio%20%238)), boosted immune function, relief from pain, detoxification, mood elevation, balanced hemispheres of the brain, and increased energy levels. Before and after thermographic images on the right show marked improvement after a 1-hour session (red=inflammation and green=clearing). To the left is a before and after GDV assessment from a 1-hour session; to the right is a before and after dark field microscopy from a 45-minute session of a 2-year old boy diagnosed with sickle cell anemia.

Supporting your clientele to go into deep meditation and ultimate relaxation very rapidly (usually within minutes), EESystem is a must for every “True Energy Spa”. Many have increased their revenue streams with this non-practitioner dependent application. Multiple chairs filled simultaneously inside EESystem free your personnel to perform hands-on services, making EESystem true bio-scalar system a perfect adjunct to any spa or wellness center.

Scalar Wave Energy Enhancement & Regeneration
A Field–Matrix Chamber to Actualize Full Spectrum Health

Scalar waves have always existed. They are well known in astrophysics, geology, and hydrodynamics. A Scalar wave is known as a fifth dimensional non-linear wave. Third dimensional laws of nature do not bind it. Scalar waves exist out of relative time and space, thus they do not decay over time or distance from their source. Thus scalar waves function in a self-referral and self-generating manner. They are unbounded and capable of passing through solid matter.

Quantum mechanical analysis of biological processes has revealed that biological systems are of a non-linear nature. When the human body enters a scalar wave field, the electromagnetic field of the individual becomes excited. This catalyzes the mind/body complex to return to a more optimal state that is representative of its original, natural, electrical matrix form.

Every cell in the human body when functioning at its maximum health potential ranges between 70-90 millivolts. Disease and aging occurs when the cellular energy depreciates to levels below this range.

The human body has crystalline structures in every cell wall that are capable of holding a charge. Scalar waves are self-contained three-dimensional waves that spin on a fixed axis. Non-linear waves propagate throughout the body via the crystalline lattices of the elaborate collagen network. The shape of scalar waves is reminiscent of the multiple helical structure of DNA as it folds in on itself. Quantum Mechanical models describe subatomic particles that can store and carry biological information along helical macromolecules like DNA. This indicates that scalar energy is capable of imprinting itself in the DNA.

This presents a paradigm shift towards a new nonlinear regulatory network in the body with properties best described by quantum physics.

The Energy Enhancement Systems a Scalar Technology produces zero point energy that is clinically proven to boost human cell regeneration, immune functions and neurotransmitter functions. Research conducted at the Max Planck Institute of Germany indicates that microorganisms exposed to scalar fields have increased activity of the RAD-6 gene, which codes for proteins involved in DNA repair. Scalar waves facilitate a bi-directional communication between the nervous and immune system as well as increase whole brain hemispheric functioning.

Scalar Energy Enhancement - Quantum Health Benefits

- Eliminate and nullify effects of negative man made frequencies in the body
- Increase covalent level of hydrogen atoms that hold DNA together
- Optimizing cellular energy levels to 70-90 millivolts

- Entrain the physiology to gain self-referral regenerative healing functions
- Increase creative intelligence and coherence physically, mentally, emotionally, spiritually, and psychically

Scalar waves have the potential for increasing life force energy and reversing aging. They establish and strengthen the connection between the human energy fields and the universal energy (or God Presence) that is limitless, without time and space. Scalar bio-energy is a carrier wave for divine intelligence to manifest your deepest souls desires health, happiness, life purpose, creative-abilities, financial and spiritual wealth.

The Energy Of Life

Volume 10, Issue 4

Sept. 2001

Energy

All life is energy. Every nerve impulse in your body is an electric current. Every cell in your body is a mini-battery pumping out 70-90 millivolts – when healthy.

Our muscles are powered by chemical energy. The steak and potatoes that you eat for dinner are really just fuel for the fire. Eating is like throwing coal in a furnace. Digestion is nothing more than a slow form of burning that which produces energy for your body to live on. In fact, death itself is defined as the absence of electrical activity in the brain. In the end, all life is energy.

Optimize that energy and you optimize your health.

Energy is neither good nor bad; it just is. The same electricity that is used by a chiropractor a physical therapist to stimulate your muscles and promote healing with a TENS machine is the same electricity that is used in prisons to execute people in electric chairs. So, is electricity good or bad? The answer is neither. It's just a question of what frequency and amplitude you use and how you use it.

Charge your body with the right frequencies and you prevent disease.

The same laser light that is used to shoot down enemy missiles or as a death ray in a movie is also used by your eye-doctor to improve your vision via Lasik surgery or by your plastic surgeon to remove facial hair and

wrinkles. Again, the difference is merely one of frequency and amplitude.

The proper use of energy in the healing arts has a long and significant history. From the TENS machines and laser surgery that we've already mentioned to the use of sound waves to break up kidney stone, or X-rays and magnetic fields to see into the body to the use of light to clean the blood.

Some forms of energy are more effective than others.

As we will see, scalar energy is merely another application of healing energy. It is the application of science as nature intended.

A New Paradigm

We are about to talk about some things concerning health and nutrition that are probably brand new to you. This topic is not inherently difficult to understand, but since it represents a total paradigm shift in how you will look at health and nutrition, we will have to proceed slowly.

We're going to learn how to actually embed healing energy in nutritional products.

Also, in order to explain everything, we will have to touch on some very esoteric areas such as higher mathematics and sub-atomic particles. Don't panic. It won't be too involved, and after every difficult section, I will summarize what you just read and tell you the key points you need to know.

We're also going to learn how healing energy frequencies are transferred from the products you ingest into every single cell of your body, with profound implications for your overall health.

With that said, let's begin.

The Nature of Energy

All of the energy that we normally think of is characterized by both particle and wavelike properties. The waveform of all these energies can be graphed as a hertzian wave (either in the form of a sine wave or a step wave).

We're talking about every-thing from electricity to mag-netism, from light to sound. The only difference between all of these forms of energy is how fast the waves rise and fall (the frequency) and how intense those rises and falls are (their amplitude).

Scalar Energy

Scalar energy, however, is a different animal. Understand, scalar energy has always existed – since the beginning of time – however, it's only recently that the scientists have discovered and begun to make use of it.

It was actually back in the mid 1800's that the existence of scalar energy was first proposed in a series of 4 ground-breaking equations by the Scottish mathematician, James Clark Maxwell.

$$\nabla \times H = \epsilon_0 \delta E / \delta t + j$$

$$\nabla \times E = -\mu_0 \delta H / \delta t$$

$$\nabla \cdot H = 0$$

$$\nabla \cdot E = \rho / \epsilon_0$$

Don't even think about trying to understand these equations.

- Just as a minor reference, H refers to the magnetic field. E refers to the energy field. Most of the other symbols are Greek letters such as epsilon and delta. The upside down triangle represents the Vector Differential.

But forget all of that. The key to these equations – what makes them remarkable in history is the use of the symbol, which stands for Scalar Charge Density – thus representing the first time that the existence of scalar energy was theoretically proposed.

It was almost a half-century later before Nicola Tesla actually was able to demonstrate the existence of scalar energy. When Tesla dies, he took the secret of scalar generation with him, and it took almost another full century before science was once again able to positively demonstrate the existence of scalar energy and turn to an exploration of its potential.

What are Scalar Waves?

The standard definition of scalar waves is that they are created by a pair of identical (or replicant) waves (usually called the wave and its anti-wave) that are in phase spatially, but out of phase temporarily. That is to

say, the two waves are physically identical, but 180 degrees out of phase in terms of time. The net result is the scalar waves are a whole different animal from normal hertzian waves. They even look different – like an infinitely projected mobius pattern on axis.

Different – How?

Scalar energy is different from standard hertzian electromagnetic fields in a number of important ways.

- First, it's more field like than wave like. Instead of running along wires or shooting out in beams, it tends to "fill" its environment. **This becomes very important in terms of developing the technology for embedding products with scalar energy.**
- For many of the same reasons, it is capable of passing through solid objects with no loss of intensity. In fact, that is exactly what Tesla demonstrated over 100 years ago when he projected a scalar wave through the earth with no loss of field strength. **Again, this is vital in the development of technology capable of embedding scalar energy in products.**
- For many of the same reasons, it is capable of passing through solid objects. This is actually the heart of the issue. All electric fields can implant their signature on objects, but not to the degree that scalar energy can. **This becomes extremely important when we actually talk about the mechanics of embedding the energy field in products, and then transferring that charge from the products into every cell of your body.**
- Scalar energy can regenerate and repair itself indefinitely. This also

has important implications for the body. In other words, once the charge is implanted, you can keep it there with the regular ingestion of charged products.

- In fact, the right scalar frequencies have a whole range of profound beneficial effects on the human body. (And we will detail each and every one very shortly).
- In the New Age community there has been much talk of the benefit of things like Tachyons, Radionics, and Pyramids, etc. **Analysis shows that these are all, at heart, scalar generating devices, but cannot come close to the effectiveness of ingesting scalar enhanced products.**

Generating Scalar Energy

Actually, scalar waves can be generated in many ways. For example, you can generate them Electronically, Magnetically, Physically (by the motion of a mobius strip), or Optically (by the movement of phased patterns on a computer monitor). You can actually buy wrist-watches that incorporate moving mobius strips that generate protective scalar fields.

Embedding Scalar Energy in Products

As I mentioned earlier, all life is fundamentally energy based, and therefore, all life has numbers of structures capable of holding a scalar charge. In point of fact, the very same structures that allow the scalar charge to be embedded in products also allow that charge to be transferred to the human body from those same products. For Example:

- There are many crystalline structures in every cell wall – all capable of holding a charge.
- There are many liquid crystal structures in the collagen network comprising all of the space between cells – also capable of holding a charge.

And In Your Very DNA

We are going to get very abstract, for one final moment, before we begin to simplify everything and bring it all together. So just hand in there for a little longer.

There are Quantum Mechanical models that describe subatomic particles such as Excitons, Plasmons, and Solitons that can store and carry biological information along macromolecules in response to low level scalar energy.

In other words, scalar energy is capable of imprinting itself on your very DNA.

Before we move on to the benefits of scalar energy for your health, it would be worth dwelling for a moment on what proof exists that everything I'm talking about is real.

There Is Proof

It is possible to measure scalar fields, but most people don't have the required equipment. Therefore, let's turn to a form of proof that we can see right now – Kirlian photography. A Kirlian photography is merely a specialized kind of photography that images the bioelectric field that surrounds all objects – particularly living objects.

U.S. News and World Report ran an article some time ago calling Kirlian photography a hoax. To quote from the article:

“Controlled experiments have shown that the Kirlian photos (captured by passing an electric current through the subject, whose “energies” are then recorded on special photographic plates) are the result of moisture and pressure, not spiritual vitality.

And that's absolutely true, as far as it goes. The simple fact is, though, that it's possible to set up a hermetically sealed environment where moisture and pressure are constant, and therefore not influencing the outcome of the pictures. An yet, even in those controlled environments, it's

possible to produce startling and revealing photos. For example:

Here are two pictures of lentil sprouts – identical, except for the fact that the lentil on the left has been soaked in very hot water for a minute or so. According to the *U.S. News and World Report* article, since it has more moisture in it, it should conduct more electricity than the unblanched lentil on the right and produce a brighter field.

As you can see, the exact opposite is true. (If you're looking at a black and white printout, the greatly expanded red area appears dark gray.) And that's why the National Institute of Health and Cambridge University, among other major institutes, are studying Kirlian photography, despite claims to the contrary.

So what can we learn about scalar enhanced products through Kirlian photos? Well, the absolute most important thing we can learn is that the scalar charge is, unquestionably, embedding itself in the products. Below are just a couple of examples of products before and after embedding.

Before embedding

After embedding

Before embedding

After embedding

The two sets of photographs above, by themselves, are revolutionary in their implications. (Incidentally, these images were produced using a brand new process – direct digital imaging, which even further diminishes the effect of outside factors such as moisture, temperature, and pressure).

The bottom line is that experience tells us that the more alive something is (the more organic it is) the bigger its energy field will be. **And Scalar Enhanced products always demonstrate a bigger field.**

Benefits

This is the big question, isn't it? What health benefits are there to consuming scalar enhanced products? As it turns out, they are many – **AND THEY ARE PROFOUND.** Regular intake of scalar enhanced products can:

- Eliminate and nullify the effects of man made frequencies (60 cps) in the human body.
- Increase the energy level of every single cell in the body to the ideal 70-90 millivolt range.
- Increase the energy covalent level of every single hydrogen atom in the body as verified by spectrographs. This is significant because covalent hydrogen bonds are what hold your DNA together. **In other words, consuming scalar enhanced products can protect your DNA from damage.**
- Improve cell wall permeability, thus facilitating the intake of nutrients into each and every cell and the elimination of waste from each and every cell. (As a result of the high transmembrane potential mentioned above, scalar enhanced products effectively cause every single cell in your body to detox).
- Decrease the surface tension of the embedded products, thereby significantly reducing the time required for your body to assimilate those same products.

- Increase overall body energy levels as a result of increasing cellular energy for trillions of cells.
- Cleanse the blood improving chylomicron levels protein/fat particles floating in the blood) and triglyceride profiles and fibrin patterns.
- Improve immune function by as much as 149% as proven in laboratory studies.
- Improve mental focus as demonstrated by increased amplitude of EEG frequencies.
- Balance out the two hemispheres of the brain, again as measured by EEG tests.
- Work as an antidepressant since it inhibits the uptake of noradrenaline by PC12 nerve cells.
- And finally, there's cancer –

CANCER

That's right, as if all of the benefits we've listed so far were not enough, **the regular intake of scalar enhanced products may very well play a significant role in preventing and/or reversing cancer.**

Cancer cells are, almost without exception, low voltage cells. As I mentioned earlier, the optimum cell voltage for most cells in the body is in the 70-90 millivolt range. Cancer cells are almost exclusively in the 15-20 millivolt range.

There have been many theories proposed as to why this is true. The most likely one is that as cell voltage starts to drop into the range where the very survival of the cell may be called into question, the cell begins to proliferate uncontrollably in an attempt to guarantee its "survival". If you raise cell voltage (which is exactly what can happen when you consume scalar enhanced products), the cell no longer needs to proliferate wildly. In effect, it can become "normal" again. **The implications for this in treating cancer could be profound.**

Questions and Answers

How long will products hold their charge?

- The higher the quality of the product to start with, the longer it will hold a charge. High quality "alive" organic type products actually will often display a stronger charge after 6 months then when first charged.

Are charged products sage?

- Absolutely. Again, there is nothing unnatural about scalar energy. It has been around since the creation of the universe. It's all a question of embedding healing/energizing frequencies as opposed to harmful frequencies.

Which frequencies do we Embed?

- Without giving away proprietary information, there are two key frequencies we focus on. First, is the Schuman Resonance. This is in the 7.8 – 8 range. It is the frequency the earth emits when there is nothing around – nothing manmade and no plant or animal life around. It is the innate frequency of the earth. The other frequency is closer to 12 HZ. This is the frequency that you will record in a rainforest – again with nothing manmade around. These are the core scalar frequencies that accomplish everything we've talked about in this report.

What will I notice by using scalar enhanced products?

- In addition to every other benefit that we've outlined so far, you will find that scalar enhanced products will be absorbed faster, work faster, and produce stronger results.

Conclusion

Several years ago, I discovered and developed the Barron Effect, which incorporates the principle of energy enhancement to modify the physical structure of herbs during the tincture

manufacturing process. The net result is herbal tinctures that are over 100% stronger than anything the world has previously seen.

Over the past two years I have been closely monitoring the work of researchers (including ex NASA engineers) who have developed a patent-pending process based on similar principles of physics that allow for the embedding of scalar energy fields in nutritional products at meaningful levels.

What I am announcing in this report is that Healing the Globe has now incorporated this technology in the delivery system of each and every one of their products. That means that:

- **Every single Healing the Globe product is now the best of its kind – entering your body fast and working better than any comparable products. No other product or company in the world can match any Healing the Globe product – either singly, or taken as a whole.**
- **Every single Healing the Globe product now works to charge every single cell of your body with health promoting scalar waves.**
- **The more Healing the Globe products you use and the more often you use them, the more profound the effect. The effect is cumulative.**

Electromagnetic Pollution to Scalar Wave Enhancement
By Dr. Sabina DeVita, Ed.D., R.N.C.P.
author of 'Electromagnetic Pollution' &
'Saving Face: The Scents-Able Way to Wrinkle-Free Skin'

*Dr. Sabina DeVita, recognized as the top researcher and trainer in the use of the GDV in North America and author of **Electromagnetic Pollution**, recently presented her research with the Gas Discharge Visualization Bioelectrography camera to the scientific community in Russia. This camera, developed by Russian scientist Dr. Korotkov and used in universities and hospitals, has been proved to have a 98% accuracy rate for use as a medical diagnostic device. It's a perfect interface with Sandra's Energy Enhancement System. We highly recommend the use of the GDV, as it shows the profound, scientifically quantifiable results of being in the system. In the extensive research history with the GDV, it has been very rare for anything to provide as effective, efficient, and consistent improvements on the human energy field as quickly as the beneficial, long lasting effects seen with the Energy Enhancement System.*

Electromagnetic pollution, the insidious and ubiquitous pollutant, is a real threat to our wellbeing. Computers, particularly the video display terminal or monitor, are the primary source of exposures to dangerous levels of radiation. As outlined in my book '**Electromagnetic Pollution**,' EMF (electromagnetic frequencies) overexposure from monitors can cause an individual to experience chronic aches and pains, sleep disorders, irritability, loss of energy, general malaise and even miscarriage. Am I contradicting myself by using the Energy Enhancement System technology in my office and actually having clients sit in a room surrounded by four computers?

I discovered that the opposite is happening with the **Energy Enhancement** technology. A natural, life-enhancing amor-phogenic resonance field is created by the programmed computers (using advanced algorithms and quantum physics) that produces an energy field called scalar waves. Scalar waves neutralize the harmful effects of EMF's. Clients are, in fact, experiencing calmness, deep relaxation, healing and a greater sense of awareness about themselves.

Electromagnetic waves are linear, Hertzian ('hurt'-zian) waves, which can be measured as a hertz frequency. Every electronic device operates by way of oscillating electrical and/or magnetic fields, making them all EM wave generators, which alter our ambient environment.

Scalar waves on the other hand are non-linear, non-Hertzian waves also called longitudinal standing waves or zero point energy, which have the ability to carry information. Since scalars exist in 5-dimensional space/time, (faster than the speed of light), they do not decay with time or distance from their source, nor can they be measured with a linear/Hertzian device. They can only be measured indirectly.

Dr. Glen Rein, a quantum biologist, points out from his experiments on the effects of scalar waves on the immune and nervous system, that non-Hertzian fields can produce very profound direct effects on biological systems independent of the belief of the individual. Scalars generate beneficial, cohesive and effective fields.

If scalars cannot be measured, then how can we detect biological changes?

I have been using a new advanced scalar technology called Gas Discharge Visualization (**GDV**) Bioelectrography camera, which measures the human energy field. This has allowed me to detect and monitor changes in the subtle energy fields of individuals. GDV is the most advanced camera on the market today. It is the most comprehensive, full body-imaging device available.

Dr. Konstantin Korotkov, a highly regarded international scientist and physicist, renowned for his pioneering research over the last 20 years on the human energy field, developed the computerized GDV camera, along with a team of Russian scientists. The GDV system allows for direct, realtime photos and videos of the entire energy field of humans, other organisms and materials. The information is extracted by software (computer processing of brightness, size, fractality and other parameters of the energy field) via the use of nonlinear mathematical analysis of fractal images, making the GDV system unique and

distinctive from Kirlian photography. Bioelectrography is a non-invasive method monitoring bio-energetic information easily acquired from the human finger tips.

The **GDV** photograph can give information about the psychological, emotional and physical condition of the individual. This new aura-imaging technique is the only available scientific device and is especially useful to show changes in the subtle energy distribution around the human body before and after any experience. The **GDV** camera has successfully passed clinical tests in Russia (passed by the ministry in 1999 for general clinical use without limitations), England, U.S.A., Germany, and Slovenia and is acknowledged in many other countries. It is currently underway at universities and research institutes world wide in medicine, consciousness studies, athlete training, biophysics, para-psychology and other areas.

"Before and after Beograms with my clients has shown quick, dramatic shifts in removing non-beneficial energies that are attached in the person's field with the use of the Energy Enhancement System." —Dr. Sabina DeVita

Earlier research proved that a subtle energy field surrounds all living organisms. More importantly, the electrical field that surrounds it influences the growth or program of every organism. Illness can appear in the energy field weeks and even months before it appears in the body. In other words, the energy field is a cosmic blueprint.

The thoughts that one creates generate patterns at the mind level of nature, which manifests in the physical. This technology assists me to help my clients 'see' their own thought patterns, which allows them to clearly formulate their 'intention' before entry to the Enhancement room. For example, one woman was feeling tired, low energy, and fatigue, with a loss of passion for life. Her Beogram (GDV photograph) showed psychic cords and an attached energy form. Her intention was to clear these cords and non-beneficial energies. After her experience in the Energy Enhancement room she felt lighter, freer and exuberant. Her Beogram now showed no psychic cords or any attachments. The GDV beograms before and after treatment with the Energy Enhancement room show significant, positive changes in the bio-energy field.

Sometimes specific emotional aromatic oils are used on the individual or in the room to potentiate the intention while in the room. Our most powerful and direct sense to the subconscious is 'smell.' Essential oils are the quickest way to trigger emotions and memory stored in the limbic system of the brain. The level of energy realized in the Enhancement room while focusing on the positive intention, works with the DNA to achieve the desired intention. A woman who desired to heal her 'diabetic' blood sugar issues showed another example of the power of the Enhancement system. She monitored her own blood sugar levels after her experience in the Enhancement room. Her levels in the morning were at 6.7, after the Enhancement room experience she found her levels to be in the normal range of 4: normal is 4.5. She was elated with her findings. My clients have expressed their surprise and delight with the Energy Enhancement system -that a healing place is, in fact, created with computers.

The Energy Enhancement healing chamber is providing an elegant, efficient and magnificent way in manifesting unlimited possibilities. The **GDV** Bioelectrography camera is providing a way to detect one's underlying emotional patterns and to monitor the subtle changes that take place in the Enhancement room. I heartily thank **Sandra Rose Michael** for the blessings she has given to our planet! Her wisdom, ingenuity, gentleness and love for humanity to achieve their "highest potential," is a unique and wondrous gift to humankind.

With my sincerest gratitude,

JOHN ORAVA, PHD, Physicist on the EESystem Effect 6-18-07

John Orava, Physicist, Pentagon Pattern energy Consultant, Consultant to the Department of Defense, and President of Bio-Physicists Foundation. This report is taken from a video made as Dr. Orava commented on the EESystem technology.

Dr. Orava, who specialises in brain research, visited a 4-unit EESystem in a private installation in Sebring, FL. Using his specialized oscilloscope he explains what he observes and what those observations mean. The video from which this was taken is on the EESystem website under Media, Video Library.

John Orava - What's occurring is the transmutation of existing energy fields and a collision of photons at 90 and 180 degrees. **The result is the production of new forms of energy fields, called scalar fields. There's even more than that going on. This definitely would have an effect on all forms of energy.** Since everything is energy, including people, it would definitely have an effect on us.

The normal 60 cycle hum that you find in surroundings from electrical circuits have been transmuted. There is no longer the 60 cycle hum that is detrimental to human health. Its been transmuted to other frequencies. This is revolutionary technology that need to be further explored for its potential for healing. This is amazing. This is truly amazing.

Sandra Rose Michael - It's good to have a physicist's view on the EESystem technology. We have the medical viewpoint, we've got the celebrities' testimonies, martial artists. Now you John. Would you explain what the test equipment is showing?

John Orava - Okay. There is a pick-up coil in the test equipment, an oscilloscope, that picks up all the EM fields in the surroundings. This equipment then translates the EM fields that are picked up into an picture of what's going on.

Normally you would see a 60 cycle pattern from all the electrical equipment around us in this room. This testing equipment is very sensitive, so you would see a continuous 60 cycle in here *[points to screen]*. You notice that there is no cycle showing here, which is, according to most physics, impossible.

The 60 cycle interference energy, which is actually detrimental to human health, is somehow being absorbed by something and its frequency has been totally shifted. Some of the frequencies I'm seeing on the screen are the same frequencies that are found in the bone healing unit that I have showed you earlier.

So I would say that some of the frequencies associated with sacred healing sites are being produced and the interesting thing is that **it's taking the contaminating energy from the surroundings and changing it into beneficial energy patterns.** And, probably to the typical scientist, this would look like unexplainable magic. But its just physics at a very high level.

Sandra Rose Michael - Now what was happening with the other waves? With the other settings and what was that showing?

John Orava - Well the other settings. Each of these little divisions is time. For example, it can be set down to millionths of a second and it will measure into the megahertz range like communication equipment and microwaves. On the fan end of the testing equipment we're looking at time frames of a second. So each time division can be a second all the way down to millionths of a second.

Sandra Rose Michael - So that's why you said it was interesting that it was taking the energy . . what specifically was it that you said?

John Orava - Well, if 60 cycle hum were present in the room and without this equipment turned on, you would see 60 cycle hum across it [oscilloscope monitor] But **with your scalar equipment present, there is no 60 cycle hum.**

It's taking the EMF energy and performing complex electrical tricks. It's taking 60 cycle and converting it into another frequency. First of all you have to convert it into direct current instead of alternating current. Direct current is like a battery and direct current does not have a detrimental effect on life forms.

Alternating current of 60 cycle causes your cells to flip back and forth 60 times per second. The earth's magnetic field is about 8 cycles per second.

Our chemistry has adapted and evolved into using the earth's 8 cycle per second as a time pulse just like a computer. It's important that we have a timing pulse, because if we didn't, our chemistry would become so scattered that we would eventually die.

Just like a computer, our body needs a timing pulse to make sure all of our chemistry is sequenced in a proper manner. When we are in the presence of a 60 cycle field, flipping back and forth is in the high stress range of a cell. Cells don't operate at that frequency. The cells are being stressed, which stresses our immune system.

Eventually this causes a collapse in our health. What important here is that the scalar technology is taking alternating electromagnetic fields of 60 cycle and is performing a lot of complex electric tricks which require a lot of electronic components.

Actually there are no components. The energy itself is at work. It is **what's confusing to a lot of scientists is that they're looking around and they don't see any transformers, rectifiers, and all the other components it would take to do this. Its like magic. You have all this detrimental EMF energy and suddenly its not detrimental.** It's changing the EMF 60 cycle into direct current and then into a higher frequency. A frequency we normally see in healing type medical equipment.

And you cannot see how its being done . . . its invisible. When we look at the equipment we see a collision of photons. When energy collides with energy at Fermi Labs or CERNE Labs, where they have the rings and collide beams, you get all sorts of interesting things because energy is released, which then becomes other forms that cover an entire spectrum.

What you have here is something that is sweeping the entire spectrum. Whatever the person's pattern is---**Whatever their own bioelectric field and complex electronic patterns are---It is sweeping across them in a beneficial manner.**

Up to 40% of the food you eat and the air you breathe is converted into electrical activity in the body. What happens is that in things like salt and potassium, the ions are separated and it creates a charge---just like the charge of a battery. Your cells charge and discharge at a maximum of 30 times per second.

That's why the upper limit of the frequency your cells can handle is 30 times per second. That's the maximum discharge, and then the are pushing it. Pushing ourselves by 60 cycles per second, is like being under a power line. It is stressing all of our cells and suppressing our immune system, which then causes all the problems.

What you can see here is the complete elimination of the 60 cycle pulse. That should be present because of all the electrical equipment that is present in this room and the power cords and everything else.

As I mentioned what you would normally see is the 60 cycle across there and there is none on the oscilloscope now. It should be there but it's not there. **Instead you have all these beneficial frequencies** and you have the points showing on the screen, which represent the collision of energy field **and the creation of entirely new types of energy.** **It's some amazing equipment you've invented, Sandra.**

OPINION ON DR. SANDRA MICHAEL'S Scalar Energy Systems

History teaches us many lessons, but the question is, do we utilize history to learn, or ignore history and make the same mistakes? Many of the astounding breakthroughs in science have been ridiculed or disbelieved because of the lack of understanding and the belief that under their current status of knowledge it would be impossible. I believe that Scalar Energy comes into this category for many in the current world.

The scientific evidence is presented by others in the documentation provided in answer to this subpoena. I have been asked to give an opinion on Dr. Michael's work. The anecdotal evidence I have heard is compelling. In addition, on 2 separate occasions I have been present with individuals who were exposed to Dr. Michael's technology. One individual had great difficulty walking and moved better and faster than before being exposed to Dr. Michael's technology. The other individual was using a walker to move around prior to being exposed and afterwards was able to walk without the walker. All after hours or days of technology time rather than months or years.

Understanding the science of Dr. Michael's technology and of the human body, I can see how the technology could have had the effect that I witnessed. The following is a simple explanation that makes it easier to understand in plain language what is occurring when Dr. Michael activates her equipment.

1. Frequencies are described by using various different names based on their appearance or effect. For example, light, sound, and magnetic waves are all frequencies yet have different names. Active noise control, utilizes a sound wave with the same amplitude as the original sound wave but with inverted phase to the original sound. This is called antiphase coherence (destructive interference). When this occurs, the resulting wave is flat as the two waves cancel each other. However, since energy cannot be destroyed, and no sound can be heard, the resultant flat wave has to contain the sum of the energy from the 2 waves.
Scalar waves are generated in a similar manner, by generating antiphase coherence
2. An example of a similar phenomenon is light waves. The frequency of light waves ($\sim 10^{14}$ Hz) is too high to be detected by currently available detectors, but it is possible to observe the intensity of its optical interference pattern, proving that it exists. To my knowledge, Scalar waves are similar and the effects are measurable even though the waves are not.

My objective in writing this opinion is that I have given an explanation that makes it easier for anyone to understand Dr. Michael's technology. Since I have a technology background, understand frequencies really well, have personally talked to a several people who have benefitted, and saw the evidence of 2 people exposed to the technology, I felt that I could safely give this opinion.

In thirty years I have never seen anything running on computers that will provide beneficial side effects. However, after looking at the MetaMatrix Technology™ for over one year, there are no flaws or deceptions of any type.

There appears to be some form of interdimensional or high super scalar energy being generated, which when a person sits in a Chamber with this MetaMatrix Technology™ running, their entire life force improves.

When we looked at water, after it had been charged in the Chamber, its fundamental nature had changed. Its permeability index increased and surface tension decreased. Food energized by this technology will be treated by the body as more absorbable.

When we processed the hydrologist test, we found that something very interesting was happening to the hydrogen atom in the water. The energy covalent level of each hydrogen atom had been increased when measured by our spectrographs. In fact the hydrogen was exhibiting some of the characteristics of heavy hydrogen, although all the aspects were very positive.

After I personally sat in a Chamber, I feel very revitalized, refreshed, invigorated and relaxed.

NEUTRALIZATION OF HARMFUL ELECTROMAGNETIC FIELDS AROUND US

I checked with an electrician because I wanted to make sure this chamber was safe. Four computers pointing to the center where someone is sitting could bombard one with radiation which we know is present in computers, emissions like 200 to 500 Hertz, or any higher frequency than 60 Hertz. We know that it is harmful to your health. He measured the wires, but could not find any electricity along the wires, which is very unusual. So he measured the wires outside the treatment room and again found zero in all the wires. He found the usual 60 Hertz only in front of the TV and in front of the computers running the programs; otherwise he couldn't find it anywhere in the office. The next week I measured the office wires again. I measured zero, then 20, then 10 minutes later it would be 15. Right now it is fluctuating between 0 and 30 Hertz. It was a very unstable field but it was less than normal. Somehow the program was neutralizing what we know as detrimental electromagnetic waves around these electrical fields.

INTENTION

Your intent is very important in anything that you do. We ask everyone to make an intent when they are in the chamber. We see that the answers to prayers are manifesting very rapidly and very consciously. Many of us pray or ask God for assistance or ask the Energy of the Universe to send you something, but not many are listening to that energy talking back to us. The most limiting factor in the healing process has been the lack of listening and getting the message of exactly what we need to do at all times. The universe is always telling us exactly what we need to do, but we are not always listening because we are so distracted by all the stuff around us. In the instructions all I say is "Close your eyes, go as deep as you can and listen".

PSYCHOLOGICAL AND SPIRITUAL RESULTS OF THE TREATMENT

This is only a preliminary report. I saw 105 patients in my clinic. We put each of them into the chamber for a half-hour. We didn't include supplements or dietary advice in the study. They didn't do the ozone chamber or chelation or anything else. My patients reported that they had stress reduction, easier meditation, increased learning capacity, better sleep and increased intelligence. A third of the people had visions. Some people reported a complete healing of chronic conditions after being in the chamber only half an hour. About 85 to 90% of people experience a deep sense of love, relaxation and out-of-body experiences, expanded awareness experiences, tingling sensations, increased libido, removal of negative blocks, clarity of thought and improvement of energy. My patients were coming out of the chamber feeling very happy. Some were crying because they were so happy. Fifteen percent of patients cancelled follow-up treatments because they said they didn't need any more; they were healed.

IMPROVED HEALTH CONDITIONS

A number of conditions have responded very quickly to the healing chamber:

DIABETES Every diabetic will have a drop in their blood sugar immediately, so they have to be tested and start tapering down their insulin or oral medicine immediately after one session in the chamber.

VISION I noticed that the healing chamber would improve vision and it started improving my vision so much that my contact lens prescription has gone down. A doctor friend of mine had bilateral retinal detachments and he went blind. He had cataracts in both eyes and he had the regular look of someone who is blind, one eye one way, and the other one in the opposite direction - white. When I shined a light in the eye, there was no papillary reflex, which meant that no light was reaching the optic nerve. No connection between the eye and the brain, really a bad case and permanent. He went into the chamber and immediately after two hours, he could see light and then after a few more sessions he could see shapes. Then I started giving him an eyedrop

preparation with herbs and aromatherapy, and he started recovering. Three months later he saw my face for the first time, and to make a long story short, he's driving a car right now.

KIDNEY STONES People who went in with kidney stones passed the stones painlessly right after being in the chamber. So it helps pass the stones.

CHRONIC PERMANENT INJURIES People with chronic permanent injuries, nerve damage, muscle damage, bone damage, cartilage damage in different parts of the body due to accidents,

were able to start moving normally. And that is very unusual because I haven't seen this improvement with any alternative medicine or conventional medicine procedures. Three of my patients expelled stitches from old scars from surgeries 20 to 40 years ago. This is very unusual. But the chamber creates a beneficial electromagnetic frequency and that gives the cells more electricity and more energy to expel anything they want to get rid of.

CHRONIC DISORDERS I noticed that people who had chronic disorders like *osteoporosis* benefited more than acute problems like colds or flu.

PAIN CONTROL The more chronic the pain, the better the chance of improvement. All my patients who were in pain experienced control of their pain right after the treatment. Pain control has a 100% result so far. It is useful for pain control of all kinds including pain that requires narcotic medication.

PARKINSON'S AND TREMOURS One of my patients with *Parkinson's* went into the chamber and has stopped shaking. This heals very quickly.

STROKES I've seen people with strokes being healed in one session.

ANXIETY AND DEPRESSION We have 100% results for people who suffer from *anxiety and depression*. I think depression is due to anxiety, it's all related.

SINUS PROBLEMS, FIBROMYALGIA, FATIGUE have improved

ARTHRITIS We're finding out that many of these conditions are caused by infections: arthritis, multiple sclerosis, Alzheimer's, stomach ulcers - who would have thought that that was caused by bacteria. Because of imbalance in the body, we are allowing bacteria and viruses to overgrow in the body, resulting in chronic disease. So arthritis is very easy to heal. One of the quickest ways to decrease arthritic pain is with enzymes. Enzymes decrease the pain, and then you start working with the infection with ozone or other things like that. My patients have told me that their arthritis has been relieved very quickly in the chamber.

CANCER I have put some cancer patients in the chamber but I have not seen any healing of cancer in the chamber yet. However, half of the patients experienced a *temporary complete absence of pain* for a few days. Perhaps this means that a cancer patient needs to be in the chamber 24 hours a day, or eight hours a day, not just two hours. I always wanted to try that, but because of logistics problems was not able to. But I would recommend that someone with cancer stay in 24 hours a day for seven days and see what happens.

RELAXATION AND HEALING AND THE POWER OF LOVE

There is one common denominator that I have found. The level of tranquillity and peace and love that you feel during the session is the main factor that correlates with these healings. If you can go into a state of deep relaxation for a long enough period, there is nothing that the body cannot heal.

One hundred percent of the people who allowed themselves to reach the point of ultimate deep relaxation from which all healing can occur were seeing visions of many things, or light, or they were hearing things. They were not fidgeting, not looking at the clock, they were not getting up or down or opening the eyes or wondering how long this will take. They were just going with it. I personally have heard rainforests every time I go into the chamber environment. I was just listening to another dimension that I am still in the process of understanding.

OPTIMAL LENGTH OF TIME IN THE CHAMBER

If you have not experienced this yet, I would encourage you to experience the chamber for *two hours* and also alone, preferably, because if you are with someone and you're going deep and they fidget, then they wake you up and you have to get started again. It's a very intimate experience and whatever happens is between you and your maker, God or the Universe, or whatever you want to call it. I noticed that two hours gave the best effects, 100% effect; the effect will vary, but it will be something major. So far 100% of people have had a major life changing experience when they are in the environment for two hours, not a half-hour or an hour. Why is this? During the first half-hour, there is a struggle between the mind and the spirit to listen. Sometimes we don't want to listen. We want to be in charge. ("No I have to be out of here in one hour, I have to pick up the kids, I have to pay this bill, I have to call Mary because she asked me.") All that chattering inside the mind is keeping you from just listening. The secret of this

Russ Roddy Testimonial Regarding Scalar Energy Therapy!

Hi, my name is Russ Roddy and I currently live in Las Vegas, NV. I worked for Veterans Health Care USA, Inc. for the past 4 ½ years as the Director of the company's Patriot Wellness Clinical Program, and I was introduced July, 2013 to Dr. Sandra Rose Michael at her home by Nicki Star through her friend Fred Erickson.

I began numerous treatments, from July-September because I suffered severe pain from a hyper-flexion/hyper-extension fracture of my neck having been in numerous car accidents. I suffered both shoulders damaged as well as sciatic nerve pain.

What's laughable is that I was rear-ended on April 23, 1991, then on May 7th and finally the next day May 8th were the injury was so severe I woke up in an ambulance and had to be taken to Honolulu's Queens Hospital. My neck was fractured and the cartilage or orbit was cracked in my left shoulder. Then, 30 days later I fell down a flight of stairs damaging the sciatic nerve and my other shoulder. Why did I suffer chronic pain 22 years, I realized these injuries weren't going to heal on their own especially on the pain killers I was addicted to for years.

In addition, I firmly believe Scalar Energy Therapy healed my body and helped me overcome several adverse health conditions I'd been concerned with since 1990. On December 8th of that year I suffered a heart attack in which heart valves were permanently damaged. Also, in 1999 I was diagnosed with prostate cancer. I went to St. Georg Klinik in Bad Aibling, Germany and was told I wouldn't make it 30 days.

So, Dr. Michael, I want to deeply thank you and your family for allowing me to benefit from Scalar Energy Therapy visits that I firmly believe helped me to hurdle these serious traumas and diseases. I am more than healthy today at 66 years old then I was at 46, and living without the severe pain and inflammation I had to endure for the past 23 years of my life. My experience was so positive with Dr. Michael (the founder of EESystem.com – she developed this cutting-edge technology) and because of the health benefits of Scalar Energy Therapy, I would highly recommend it to others. With this amazing result, I naturally want to tell everyone possible about how Scalar Energy Therapy can promote our good health and well-being.

This is the energy boost the body needs to activate the healing/regenerative mechanisms, also to rid the body of sickness, illness and disease. A simple 1 to 2 hour session also eliminates unwanted toxins/harmful chemicals prescribed and taken to suppress our pain/symptoms that only end up fighting our body's healing processes. My experience in the 12 -sessions I've had so far is nothing more than miraculous!

In conclusion, I came to Las Vegas in June, 2013 as a health restoration therapist and to open Patriot Wellness Clinics for treating our veterans for PTSD, anxiety, depression and insomnia, pain/traumas and wound healing. I am now convinced that Dr. Sandra Rose Michael's Scalar Energy Therapy is the answer I was looking for, and my company's founder as well as our CEO, are convinced too. They both have benefited from the Scalar sessions. So, after consulting with Dr. Michael's company, we all have agreed to install a 24-unit Energy Enhancement System in each of our clinics to treat our veteran community, thanks!

An Informal Pilot “Snapshot” Clinical Study**

Introduction:

Even with my nearly 35 years in the field of Integrative Medicine, I must confess that when it comes to the healing possibilities of scalar energy, I was an unabashed sceptic.

How can sitting in a room with computers incessantly flashing iridescent colors across the screen possibly be healing?

This spring I had an opportunity to work directly with Dr Michael’s EESystem scalar energy myself, and was in for a surprise.

We present to you here, 10 self selected subjects, who came for EESystem scalar sessions, including 6 vets and a wife of a vet, and invite you to the possibility of a whole new paradigm for medicine.

Case #1: 59 yo WM Vet, presents with 3 year history of transitional cell **carcinoma** of bladder, first diagnosed May 2012, with persistent symptoms of daily gross hematuria, urgency, and urinary incontinence, s/p TURBT x 4; eight **TBI’s**, four requiring hospitalization ; and **ADD/ADHD** since childhood. January 2015, he commenced on a series of EESystem sessions. Within a month, his symptoms abated significantly, with 90 % improvement in hematuria, incontinence, and urgency. On May 28, 2015, his cystoscopy revealed “no evidence of worrisome invasive TCCA.” Pt furthermore reports “greater focus, composure, and productivity.” [see chart]

Case #2: 37 yo male Native American Vet, discharged on partial disability for brachial plexus **neuropathy**, presents complaining of 30 month history muscle weakness "no strength," and 2 year history upper extremity numbness from shoulder to thumb and index fingers, with sensation only upon deep pressure.

Within 20 minutes of his 1st EES session, he reported return of sensation, "I haven't felt this part of my arm in nearly 2 years!" At the end of his one hour EES session, he reported return of upper extremity strength, and his hand shake grip. Within a week of his EES session, he regained his ability to once again successfully fly aircraft.

Case #3: 58 yo male Native American Vet presents with a 30 year history of debilitating chronic cervical, and RLE **pain**, secondary to multiple MVA, most recently in 1976; with an 85% percent L

ear **hearing loss**, and **memory** loss as well, secondary to **TBI** closed head injury.

His EES sessions were 3-4x/week, each lasting 2-3 hrs. Two sessions were overnight 8+ hours duration. After his 1st session, he woke the next morning for the first time in decades with “no pain.” During his 2nd EES session, he reports his hearing began returning. Week #4, he reported “total” relief of his pain, and 90% improvement in hearing. He also reports the welcome return of buried memories, long forgotten.

Case #4: 67 yo WM Vet presents with 45 year history L ear **hearing loss**, secondary to military accident. After his first EESystems session, which was an overnight 12 hours, his hearing returned fully to normal, and has remained so since. His grey hair color furthermore started growing back in brown, his original hair color.

Case #5: 71 yo WM Vet presents with 3 year history of **diabetes and diabetic neuropathy**, with progressive lower extremity numbness, pain, and paresthesias; HTN, and a life long history **insomnia** “I don’t sleep.”

During his very 1st EES session, “Pain in my feet went away; and I could go to sleep.” Over the next month of EES sessions, his blood pressure and blood sugars also normalized, and stabilized. With his most recent EES session, his sensation returned, “for the first time in two years, my feet feel almost normal!” [See chart]

Cases 6: 77 yo WM vet, s/p MVA x 3, presents with R **hemiparesis**, requiring full time 24/7 assistance, unable to walk, dress himself, etc; **chronic pain**, and **HTN**. Meds included antihypertensives, gabapentin, and hydrocodone. After one week of EES overnight sessions; he regained enough mobility to dress himself, take himself to the bathroom, and get himself in and out of bed. His pain improved significantly; blood pressure normalized; and he stopped all his medications. His overall sense of well being and condition continued to improve over the remainder of his two week stay. He has since reported that he is now self sufficient enough to spend entire weekends without his care taker.

Case #7: 24 yo Oriental M presents for acute diving accident head **injury**, 10 yr history **winged scapula**, and **insomnia**. Pt had EES sessions x 4 days. On his 1st day, he did an extreme workout at the gym. Pt reported pain relief, better sleep, and more rapid than expected recovery from both injuries and gym, with no bruising, soreness, and/or swelling.

Case #8: 68 yo WF presents for follow up multiple hand **injuries** – see her letter [Dianne]

Case #9: 61 yo WF vet wife, presents with relapse of endometrial **cancer**, complaining of severe anal and rectal **pain**. After one 1 week of EES sessions 3-4 x/week, each of 2-3 hours duration, she reported remarkable relief of pain.

Case #10: 65 year old WF presents with 46 year history **GER**, 43 yr history **bipolar** disorder, 33 years **HTN** and **hypothyroidism**, 30 yr history **sarcoidosis**, 29 yr history **herpes**, 17 yr history diagnosed **CFS** and **FMS**, 9 year history **AODM**, 3 yr history chronic **pancreatic**, and recurrent history of pneumonia and **URI's** since childhood. Began EESystem sessions 4 mo ago, 2-4x/week, 2-4hrs/session.

Under the care of her internist and hematologist, pt reports that, with exception of Lasix 40mg QD, she no longer requires the meds they prescribed for her GER, bipolar disorder, sarcoidosis, hypertension, or diabetes. Her thyroid dose has been reduced from 175mcg to 125mcg L thyroxin. Her lab results ACE level dropped from 140 to 68. Meds used to also include dexilant 60mg QD, zoloft 50mg QD, seroquel 100mg QD, xanax 1mg QD, losartan hctz 100/25mg QD, prednisone 60mg QD, zovirax 800mg TID, hydrocodone [hydromet] 10 mg Q8h, methotrexate 15mg weekly, and metformin 500mg BID.

Furthermore, the chronic pancreatic abdominal pain that she has had for the past 3 years is gone. Her FMS pain is 75% improved; she has had no outbreaks of herpes; and in her own words “now has more energy than ever. I run circles around people.”

Besides diet, and follow up with her internist and hematologist, EESystem is the only other modality she pursued during this 4 month period. [See pt chart]

Discussion:

What is the biophysiology of how scalar waves work? Dr Terry Shintani MD of suggests “The scalar field purportedly enhances the metabolism of the cell by being set to pulse at a frequency harmonious to living cells and restores optimal potential difference between the inside and the outside of each cell. This in turn would help the cells to function optimally, eliminate toxins more efficiently and repair itself more quickly.” [Shintani]

Other researchers have demonstrated in not yet published studies the effect of scalar waves on blood cell viscosity; the neurologic effects of scalar fields on brain waves – shifting brain waves, as measured by EEG, to an increase in alpha, delta, and theta waves, associated with a more deeply relaxed state [See photos] , and on noradrenaline uptake [Rein]. Some scientists suggest the possibility of stem cell activation, repair of DNA, and even the lengthening of telomeres, as well.

Herbert Benson MD, of Harvard University Medical School, and author of *The Relaxation Response*, documented in a breakthrough 1971 study how, “*Mental states can markedly alter physiologic function.*” EES subjects by their own reports, and by clinical observation, nearly always experience a sense of deep relaxation, with a shift to a more meditative mental state, as a result of their EES sessions. [Loeffler]

With the wealth of research on the deleterious effects of stress on health, what if the reversal of stress, via a scalar induced relaxation response has implications, and promise, for true wellness, far greater than the medical profession has yet to realize?

Conclusion

While we admittedly cannot fully explain how scalar waves facilitate healing – As my father, an Air Force Lieutenant Colonel surgeon, used to say, “*You can’t argue with results.*”

Ordinarily, we’d of course suggest double blind studies, to further investigate the applications, efficacy, possible side effects, etc of EES scalar sessions.

EESystem scalar energy however, is a non-invasive, non-pharmacologic modality, with well over 15 years of accumulated clinical data with NO known adverse side effects.

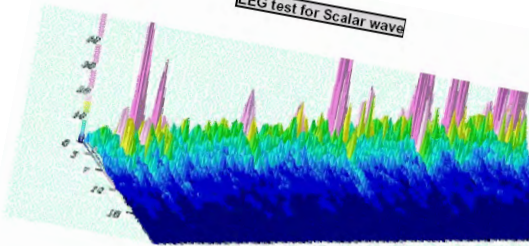

Furthermore, a growing body of respected MD’s from across the nation are actively using EESystem scalar energy in their practices for their own personal health, and for the wellness of those they most care most about. They consistently report impressive results for conditions from acute to chronic, autism to PTSD, and more. [see Appendix A].

As the daughter of a surgeon, I nearly became a surgeon myself – I happen to like results. EES scalar energy produces results. As a physician of over 35 years experience, for anyone facing some challenge in their life – physical, emotional, or mental – I highly recommend giving yourself a trial series of EES sessions, and experience the possibilities of scalar energy for yourself.

Dear Dr. Sandra Michael

I would like to convey my sincere and heartfelt gratitude to you.

Recently I had the opportunity to spend 2 hours in your EE System in Las Vegas. Prior to that time I had experienced daily what I believed to be the onset of Parkinson's, or a serious deterioration of my nervous system due to being electrocuted at 23 years of age. This has also been a hereditary condition on my father's side for 3 generations to which doctors really did not know what it was...they said it was not Parkinson's but they did not know what it was either, and seemed to get worse after my accident. Either way, every year that passed, my hands began to shake more and more and I was told there was nothing that could be done for my condition and that it would get worse. I spent 2 hours in your 8 system machine and after I walked out my hands have never shaken again. It's been 27 days...i am counting them...and my nervous system feels in sync again and my hands don't shake. I also had a dot on my retina the obstructed my view that appeared a few years ago and that has since disappeared which is allowing me to think clearer without that minor but constant irritation. You have my vote for the Nobel Prize and thank you, thank very much Dr. Michael!

Sincerely,

Warm regards,

“I wanted to let you know the results of Lacy's test after her first two hours in the EESystem at the Enhancement Institute, in Houston. The results are as follows: Lacy's Lupis is now in remission, her pancreas count was 519 before the experience and it is now 92. Her doctor told her that he feels she will not need the pancreas operation.

Thank you for you kind and generous help.”

Blessings to you,

Thank you, Dr. Sandra Rose Michael / Scalar Energy Therapy!

Hi, my name is *Sharon E. Frank and I live, and work in Baton Rouge, LA for Geaux Health and Fitness Magazine. I just turned 59 in June and I feel wonderful for a woman my age! Although I've had to overcome several adverse health conditions, you Scalar Energy Therapy helped me hurdle a serious disease that led me to write about my experience.

I came to Las Vegas in late October, 2013 at the urging of my dear friend Russ Roddy, a health restoration therapist and Director of the Patriot Wellness Clinical Program for Veterans Health Care USA, Inc. Russ had met Dr. Sandra Rose Michael earlier in the year through a friend, and he himself had been receiving numerous Scalar Energy Therapy sessions. So, after consulting with Dr. Michael about my condition, he naturally encouraged me to come to Vegas for Scalar Energy Therapy treatment myself.

My condition was diagnosed with a disease called Endometriosis. It's common for a woman my age to develop internal fibroids and cysts in the female area. The examining doctor recommended a hysterectomy – a surgery that removes everything from the uterus to the ovaries from the cervical area.

Through ultrasound, the doctor was able to see the size of the fibroids and they had grown to the size of my little fingers. Numerous cysts had developed among the fibroids causing excruciating pain/edema (due inflammation). Along with discomfort in the abdominal area, I had a continuous discharge of bloody secretions. So, faced with a \$15,000 surgery, I figured it couldn't hurt to try this therapy although I was somewhat skeptical.

The day after I arrived, I was taken to Dr. Michael's home to meet her and receive the treatment. She and her lovely daughter May guided me to a room where they had set up a 12-unit Energy Enhancement System Dr. Michael has developed over the past 20-years. I simply laid on a comfortable bed for the 2 ½ hours and went into a slumber or light sleep. I could feel the energy produced by this system permeate my body and almost immediately my eyes became quite heavy. I welcomed this because I was quite fatigued from all the travel and what my body was trying to cope with due to the pain from these growths.

When I awoke, I was amazed at how much energy I had. In just one treatment with Scalar Energy Therapy, my disposition was transformed. I went from negative energy to positive and felt a happiness state of well being. This euphoric, but cheerful state made me want to come back again and again; which I did four days in a row (spent 2-3 hours per visit or 10 to 12 hours total). I had so much energy, that several nights before I left, we went dancing for over three hours.

When I returned to Baton Rouge I kept my doctor's appointments in which they finally had scheduled a date for the surgery on May 8th. To my surprise, the doctor did not perform the Hysterectomy as he intended. Only a D and C or scraping was required because the fibroids/cysts were gone! The surgeon only found a few polyps and some dried blood. Wow! I had escaped the knife and kept everything intact. With this amazing result, I naturally want to tell everyone possible about Scalar Energy Therapy and what it can do through our health and fitness magazine.

EEBodyGear™

EEBodyGear™ today includes EEMedallions™ and EEBracelets™, which are *hyper-charged with super healthy, scalar enhanced energy*. These scalarized accessories are offered in natural, semi-precious stones such as pale Pink Rose Quartz, White Jade, Black Obsidian, Zebra Jasper and Tiger's eye. The EEMedallion comes plain with a silk black cord or can be adorned with your choice of pure copper or sterling silver clasp, or "lucky" Chinese coin.

EE stands for **Energy Enhancement™**, and EEBodyGear radiates a *true* bio-scalar charge ~5 feet, making it easy to wear or place in the home for quickly enhancing and organizing your energy field. Global testimonials from people helped by EEBodyGear's scalar energy field include: increased energy, stamina and peak performance; accelerated healing from surgery, sickness and injuries; decreased inflammation; pain relief; reduced stress; better focus; improved breathing; sleeping through the night for the first time in years; migraines disappearing; babies pacified; eye infections and floaters visibly gone; help to stabilize blood pressure and blood sugar; older and arthritic pets acting young again; food lasting longer in refrigerators; and improved taste of wine and water. A true bio-scalar field organizes energy fields while helping to neutralize and/or nullify detrimental effects of toxins, fumes and electro-pollution. The scalar field modifies the molecular spin of the toxins, fumes or negative energy fields (such as EMF, ELF, microwaves, Wi-Fi, cell phones, airport radar, X-Rays, CT Scans, non-ionizing and ionizing radiation) rendering them less destructive to the body since the fields are now harmonious and supportive of the body's natural energies.

In *Vibrational Medicine*, Dr. Richard Gerber, M.D. cites Dr. Valerie Hunt, Professor Emeritus of UCLA, and Dr. Hiroshi Motoyama of Japan using electromagnetic equipment readings amongst other methods to show the actual existence, location and colors of the 7 major spinning vortices of energy in the physical body known as *chakras*. These energy centers correspond with the 7 colors of the rainbow known as the Visible Light Spectrum. Just as quartz crystal bends sunlight into a rainbow, the biocrystalline structures in our bodies subtly do the same. These 7 colors range from *red* to *violet*—*red* with the *lowest* frequency measured in trillions of Hertz called terahertz (THz) and the *longest* wavelength measured in nanometers (nm), all the way up to *violet* with the *highest* frequency and the *shortest* wavelength.

EEMedallion is intentionally the geometry of a torus, or a donut ring. This zero-point toroidal configuration to the right shows the body's natural scalar vortex. This vortex represents how energy flows, which is both upward from the earth into the root chakra and downward from the sky into the crown chakra—*simultaneously*—while merging at the thymus, known as the "High Heart" and "Point of Immortality". EEMedallion radiates scalar energy helping activate and strengthen one's own scalar vortex and subsequent scalar field, a longitudinal standing columnar wave of infinite energy permeating and surrounding the entire body.

EEMedallions are especially useful to grid your bed (a set of 5) or your pet's bed for restorative sleep. Produce stays fresher longer with one in each bin of your refrigerator.

Wearing them in your pockets, wallet or bra when you do not want to wear a necklace, or taping them to an injury, are effective given their 5-foot radius of influence. Use one without cord, clasp or coin at the bottom of a 1-3 gallon glass dispenser with spigot (or put one under your drinking glass) to charge your water or other drink. Then place into the refrigerator—*true* "living water" is cold and more oxygenated. Sleeping masks with EEMedallions help deep meditation, clarity of vision and are fantastic for Frequent Flyers! Energy Therapists can quickly align their clients' chakras in healing sessions (a set of 8). EEBracelets can be used on wrists and ankles. Ideas are endless and so is the infinite, self-regenerating energy of your EEBodyGear, which maintains its charge perpetually!

EEMedallion "Chakra Alignment" Gift Set for \$530 comes with 8 EEMedallions and Dr. Michael's Healing Meditation CD. EEMedallion "Grid Your Bed" Gift Set for \$350 comes with 5 EEMedallions, and Dr. Michael's Healing Meditation CD. EEMedallion Refrigerator Gift Set for \$150 comes with 2 EEMedallions to further enhance your food and your health. Individual EEMedallions are \$100. EEBracelets are \$62 each. EESalt *signature blend* for your bath is \$22.

RADIATION TO RADIANCE

According to nuclear physicist Lauren Moret, the only thing known to reverse the effects of ionizing radiation is Tesla type technologies; and cold nuclear fusion may be the antidote to fission. The benefits of EESystem can support the integrity of our DNA that may have been damaged by radiation.

DR. SANDRA ROSE MICHAEL'S SALT BATH RECIPE FOR RADIATION

2 cups Real (sea) salt
2 cups baking soda
2 tablespoons Hyper Charged EE Salt

OR best to just use straight from the EE Salt bag!

RECOMMENDED DETOX

Drink more water. At least 1/2 gallon to 1 gallon per day of filtered or purified water.

To facilitate any detoxification symptoms take a bath that day or the following day. Simply put 2 cups of salt in tub or add the following ingredients to help facilitate the elimination of heavy metals and toxins.

2 cups baking soda
2 cups sea salt
2 cups vodka (cheapest available is fine) and/ or food grade hydrogen peroxide and/ or apple cider vinegar
2 lemons juiced (optional)
2 tablespoons of EE Salt to hyper charge your bath!

Pour all the ingredients into a warm to hot bath and soak for 30 minutes.

Doing a gentle massage with focus on the colon to help the elimination process.

Remember to drink more water, fresh raw juices, *Smirider's Calli* tea and *Fortune Delight* and herbal (non castinated) teas to flush out any toxins your blood may be releasing.

Eating more fresh fruits and vegetables also helps the body cleanse gently.

Keep your colon moving to further eliminate any toxins by using herbs, enemas, or colonics.

Add essential oils, candlelight, and **BREATHE & let go** to send yourself to bath heaven!

SALT-CLO SPA TREATMENT

If you don't have a bath tub make a paste with salt, water and a good oil (sesame oil or avocado, mac. nut) and massage the whole body in the shower.

HIGHLY RECOMMENDED...

Research shows that 20 cups of green tea per day provides the highest protection (97%) against exposure to radiation.

Smirider's Calli tea is highly concentrated, containing catechins and other polyphenols effective in absorbing damaging free radicals providing protection. Dr. Michael recommends 17 tea bags EVERY day.

After 55 years of being classified, research was released showing that 20 cups of green tea a day provided 97% protection against exposure to atomic radiation in Hiroshima and Nagasaki. Perhaps it is why green tea is the number one item on the list for radiation protection today. Green tea contains catechins and other naturally-occurring polyphenols effective in absorbing damaging free radicals. But 20 cups of tea a day is beyond most people's reach. That is where Sundrider has the answer: Use just one raw food concentrated tea bag a day!

Calibr8 can help your body release its own primary antioxidants to support detox pathways while reducing inflammation. Great for Adults and Children to Maintain Healthy Optimum Epigenetic Expression.

This CD is a meditation that I shared during a class 21 years ago. The meditation goes through all the organs and connects you with your highest guidance.

We chose to re-release this now, as people around the planet have simply been listening to this extraordinarily effective meditation and reporting miracles upon miracles all these many years.

DJ Scalar has digitized and remastered the meditation and added the “scalar pulse.” He did an amazingly brilliant job.

Effortlessly go into exquisite regenerative states that assist with the deep shift of planetary transformation. Just put it on and go to sleep! Everybody loves it!

Use in the EESystem as a perfect session...or put it on at night in your bedroom. Great for your friends, family, patients and clients to take home with them!

With Waves of Aloha Around the World,

Breathing deeply, going all the way in, knowing Oneness with the Breath of Life, with the Power of Love that's behind it all here now.

This is the perfect opportunity to let go of anything and everything that you no longer need or that no longer serves highest purposes in being here now.

Thanking everybody for allowing you and everybody all experiences chosen on purpose, as it's taken a lot of Love to agree to play it all out. They were the perfect experiences that allowed you to be exactly where you are now to fulfill highest purposes of your being here now.

Grateful for all your experiences, having full assimilation and knowing the Wisdom of it all.

So keeping the Love and letting go of everything else.

Thanking your body for letting go so quickly, so easily, so deeply and so completely now.

Releasing into the fullness of the Love that you've always wanted here and now.

Breathe the Energies all the way through, letting your whole body and all being clear.

Breathing all the Love of the entire Universe through every cell and part of yourself through all parts of the Universe within you now.

Letting every cell know and remember the truth of the Love of your being here now.
